

## Transmission Oils

Multi-purpose ATF is an automatic transmission fluid formulated to meet the needs of high performance, multi-purpose power transmission fluid applications. It is designed for use in passenger car and light truck automotive transmissions. ATF is a blend of high quality base oils and additives that provide outstanding oxidation and thermal stability, friction control, load-carrying ability, corrosion and wear protection.

Additionally, ATF prevents the accumulation of deposits and formation of sludge, varnish and foam.

### Features and benefits:

- Universal product that meets Dexron III and GM/Ford ATF
- Meets requirements for Chrysler ATF +4, Allison TES295 and Mercon V, Mercon SP, Mercon LV
- Outstanding thermal stability and oxidation resistance
- Reduces maintenance costs and extends transmission lifecycle

### Specifications:

Specification	Test Method	ATF -32 (*)
Viscosity, cSt @ 40C	D-445	33.12
Viscosity, cSt @ 100C	D-445	7.1
Viscosity Index	D-2270	189
Flash Point, F, COC	D-92	212
Pour Point, F	D-97	-36
Brookfield Viscosity cP @ -40C		17500
